

NAIMUL HASSAN BADHAN

PHP/Laravel Developer

Profile

Driven and creative PHP Laravel developer with a knack for crafting innovative web solutions. I thrive on tackling coding challenges and delivering clean, efficient code. Eager to join a dynamic team where I can leverage my skills and passion for continuous growth to build exceptional digital experiences

Training & Projects

2024

Ostad limited

- **Web Development with Php/Laravel**
HTML, CSS, Bootstrap (Framework), JavaScript,
PHP & Laravel (Framework), DBMS, Website design

Contact Management Application

[contact_management_github](#)

- Developed a full-stack contact management web application using Laravel 11.x, featuring a clean and responsive user interface. The application supports CRUD (Create, Read, Update, Delete) operations for managing contacts, including advanced sorting, filtering, and search functionalities.

Task management application

[Task_Management_Github](#)

- Developed a simple task management application using Laravel and Tailwind CSS. Utilized Tailwind CSS for responsive, modern UI design, ensuring a seamless user experience across devices.
